MAK'S TECH

WHO WE ARE

MAK'S Tech Ventures Ltd is a Nairobi-based technology solutions company specialising in business automation, tax compliance, point-of-sale, banking, and physical security systems. For over a decade, we have been the trusted partner of retailers, banks, restaurants, SACCOs, government agencies, and growing SMEs across Kenya and Africa.

Our strength lies in combining KRA-certified and internationally approved hardware with expert installation, seamless software integration, and the kind of responsive, hands-on support that lets you focus on running your business — not your devices.

KEY METRICS

500+	10+	40+	24/7

OUR VALUES

- **Precision** — We deliver solutions that work first time, every time.
- **Partnership** — Long-term relationships built on trust and results.
- **Compliance** — Every device we supply meets KRA and international standards.
- **Speed** — Deployments completed in days, not weeks.

> *"Their TIMS Type C installation, IncoPOS ERP, and thermal printers have revolutionised our operations."*
> **— Budget Wear**

Why eTIMS Compliance Matters

"Their TIMS Type C installation, IncoPOS ERP, and thermal printers have revolutionised our operations." KRA mandates all VAT-registered businesses to issue tax invoices through eTIMS-compliant devices. Noncompliance attracts penalties and inability to claim input VAT. MAK'S Tech Ventures ensures your business is fully compliant with type-approved devices, expert setup, and staff training — all in one package.

KRA APPROVED | ETIMS VERIFIED | TIMS COMPLIANT | TYPE A & C
